1.	This opinion co	ntains indicati	ons relating to the foll	owing items:		
	Box No. I Basis of the opinion					
	Box No. II	Priority				
	D Box No. III	Non-establishment of opinion with regard to novelty, inventive step and industrial applicability				
	☐ Box No. IV	Lack of unity of invention				
	Box No. V	Reasoned statement under Rule 43b/s.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
	Box No. VI	Certain documents cited				
		Certain defects in the international application				
	Box No. VIII	Certain observations on the international application				
2.	FURTHER ACTION					
If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the international Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the international Bureau under Rule 68.1 b/s(b) that written opinions of this international Searching Authority will not be so considered.  If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date whichever expires later.						ifed the pority
						invited to three e priority date,

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/GB2005/000177

iAP20Rec'dPCT/PTO 06 JUL 2005 Basis of the opinion Box No. I 1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. This opinion has been established on the basis of a translation from the original language into the following language , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)). 2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: a. type of material: a sequence listing table(s) related to the sequence listing b. format of material: In written format in computer readable form c. time of filing/furnishing: contained in the international application as filed.

In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

filed together with the international application in computer readable form.

furnished subsequently to this Authority for the purposes of search.

## iAP20 Rec'd PCT/PTO 06 JUL 2008

International application No.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

PCT/GB2005/000177

Re Item V.

Reasoned statement with regard to novelty, inventive step or industrial applicability.

Reference is made to the following documents: 1.

D1: DE 203 01 207 U1 (SAYDA GERAETEBAU GMBH) 30 April 2003 (2003-04-30)

D2: GB 23179 A A.D. 1910 (WILLIAM EDGAR) 23 March 1911 (1911-03-23)

D3: GB-A-2 389 894 (KEITH LARKE) 24 December 2003 (2003-12-24)

D4: US-A-3 565 283 (RINALDO SCIACERO ET AL) 23 February 1971 (1971-02-23)

- The present application does not meet the criteria of Article 33(1) PCT, because the 2. subject matter of claim 1 does not involve an inventive step in the sense of Article 33(3)PCT.
- Document D1, which is considered to represent the most relevant state of the art to 3. the subject matter of claim 1, discloses a heating unit for heating a patio.
- The subject-matter of independent claim 1 differs from the disclosure of D1 in that 4. said heating unit comprises a token-operated or coin-operated meter which allows the passage of the gas to the heater for a predetermined period of time.
- The problem to be solved by the present invention may therefore be regarded as 5. reducing the waste of gas.
- The solution proposed in claim 1 of the present application cannot be considered as 6. involving an inventive step (Article 33(3) PCT) since a token-operated or coinoperated meter has already been employed for the same purpose, see document D2, page 1, lines 5 to 13. It would be obvious to the person skilled in the art (see PCT-Guidelines Part III, Chapter 13.05), namely when the same result is to be achieved, to apply these features with corresponding effect to a heating unit for a patio according to document D1, thereby arriving at a heating unit according to claim 1.

# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

International application No.

PCT/GB2005/000177

- 7. Dependent claims 2-11 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of inventive step (Article 33(2) and (3) PCT). The reasons therefore are that additional features of said claims are either known from documents D2, D3 and D4, or are combinations of the features obvious to the man skilled in the art in consideration of the disclosure of the prior art named in the present proceedings, or they concern only modifications which lie within the normal practice of the man skilled in the art.
- 8. The subject-matter according to any of claims 1 to 31 is industrially applicable (Art. 33(4)PCT).

#### Re Item VII

#### Certain defects in the international application

- 1. To meet the requirements of Rule 6.3(b) PCT, the independent claims should be properly cast in the two part form, with those features which in combination are part of the prior art being placed in the preamble.
- The description must be brought into conformity with the new claims to be filed (Rule 5.1(a)(iii) PCT); care should be taken during revision, especially of the introductory portion including any statements of problem or advantage, not to add subject-matter which extends beyond the content of the application as originally filed (Article 34(2) PCT).
- 3. To meet the requirements of Rule 5.1(a)(ii) PCT, documents D1, D2, D3 and D4 should be identified in the description and the relevant background art disclosed therein should be briefly discussed.
- 4. The definition of the **problem** underlying the invention should be presented in the description in such terms that its solution can be better understood in view of the disclosure of document **D1** (Rule 5.1(a)(iii) PCT).
- 6. Moreover, the applicant's attention is drawn to the fact that, as a consequence of
